THE CORNWALL HI-FI & HOME CINEMA SHOW 2026

Welcome to the Cornwall Hi-Fi & Home Cinema Show 2026! This year marks our 8th annual celebration of great sound and entertainment, and it comes in an extra special year for HBH Woolacotts as we celebrate 50 years in business.

First launched in 2018, the show grew from a simple idea: to create a dedicated event here in Cornwall where people could come together to celebrate great music, discover brilliant hi-fi and experience some of the very best audio equipment from the brands we work with.

A lot has changed since that first show; what began with a strong focus on hi-fi has grown to include the latest TVs, home cinema, wireless audio, headphones and much more. But at its heart, this is still a proper hi-fi show - it's a chance to sit down, listen, compare and experience equipment for yourself, with experts from some of the biggest names in the industry on hand throughout the event.

Whether you're a lifelong hi-fi enthusiast looking for your next upgrade, a music lover putting together your first system or a film fan keen to see what the latest TV and home cinema technology can do, you're in the right place!

This year brings another fantastic mix of familiar faces, exciting products and new additions to discover, including TCL - one of the world's largest TV manufacturers - making its debut at the show.

So have a wander, take a seat in the demo rooms, turn up the volume, ask plenty of questions and make the most of having so many leading brands together under one roof.

Welcome to the Cornwall Hi-Fi & Home Cinema Show 2026, we hope you have a brilliant day.

WELCOME

Welcome to the 2026 Cornwall Hi-Fi & Home Cinema Show!

Why do we put on the show? For us, it's about bringing entertainment to life; it's hearing the detail in a favourite song, feeling the emotion behind the music and getting the very best from every source, whether that's vinyl, CD or streaming.

The same goes for TV and home cinema. The right television, soundbar or surround sound system can bring the big screen experience into your home and put you right in the middle of the action. Suddenly you're in the stadium for the big match, sitting around the table on The Traitors or trying to work out whodunnit before the faithful do!

Whether you spend hours every week listening to music and watching TV or only get the occasional chance to sit down and enjoy them, we think those moments should sound and look their best - that's a passion we all share here at HBH Woolacotts and across the brands who take part in the show. Remember, you'll always find the HBH Woolacotts team in your local store, ready to be Happy to Be Helpful!

This year we're welcoming back plenty of familiar names alongside some brands making their show debut. TCL and METZ join us for the first time and there are loads of exciting new products to see and hear throughout the weekend.

Personally, I'm looking forward to seeing and hearing the WiiM soundbar, LG's W Series OLED and Arcam's A50 amplifier and CD25 CD player... actually, I could go on and on; there's something in every room that I'm excited about! Be sure you don't overlook the details either - those Sanus TV brackets and Chord cables might not grab the headlines, but they can make a real difference, too.

Most importantly, thank you for coming. Your support for the show, our business and everyone who puts so much into making this event happen really does mean the world to me.

I hope you have a fantastic time at the show.

Geoff Pratt - Lead Organiser

Hi, I'm Dan – you may recognise me from our social media feeds.

My role involves organising and creating content for our marketing materials and social media, while also supporting Geoff with the show and coordinating with the brand representatives.

I'm very lucky to have my colleague, Sophie, in head office to support me with all of our content creation. She helps with managing when posts go out, newsletter scheduling and - all in all - making my life easier!

My passion for music began when I joined the company for the opening of our St Austell store 14 years ago; a visit from a KEF ambassador showed me that music is more than sound - it's an emotional experience, with every listener connecting to it in their own unique way. Whether it's the song from your wedding or a film score, music evokes powerful memories.

Personally, I'm a huge fan of film soundtracks. My wife often catches me listening to them with my eyes closed, fully immersed in the experience. This year, I'm most excited about the new KEF LS LUXE; with its new Velocity Control Technology and that beautifully sculpted cabinet, I've been blown away by its performance and style. We've got so much to see and experience at this year's show that I think this year's Adrian Dykes award for best stand is going to come down to the wire!

From all of us at HBH Woolacotts, we hope you enjoy the show.

LS LUXE – The Wireless HiFi that Redefines Luxury

Since 1961, KEF has shaped acoustic innovation, delivering authentic sound true to the artist's vision. LS LUXE combines advanced KEF technologies, including Uni-Q with Metamaterial Absorption Technology (MAT), Velocity Control Technology (VECO), and Music Integrity Engine (MIE), to create rich, immersive sound in any environment.

- Metamaterial Absorption Technology (MAT®) for pure, natural sound
- 12th generation 6.5-inch Uni-Q® with MAT® for exceptional acoustic accuracy
- Flexible decoupling chassis to minimise panel vibrations and avoid audible distortion
- Velocity Control Technology (VECO) delivers clean, undistorted bass
- Music Integrity Engine® (MIE) for remarkable integrity, detail, and accuracy of sound
- Current-drive amplifier directly controls the motion of the cone for a lower distortion and cleaner sound
- Comprehensive applications and connectivity with HDMI eARC, analogue, optical and coaxial inputs

ABOUT HBH WOOLACOTTS

HBH Woolacotts is a local, family-run electrical retailer selling and servicing a huge range of electrical appliances, TVs, hi-fi and home entertainment products across Cornwall and Devon. In 2026, we're proud to be celebrating a very special milestone: 50 years in business!

It all began in Bude and Launceston in 1976. From those humble beginnings, the business has continued to grow and develop and today we have nine locations across Cornwall and Devon, including our Electrical Superstores in St Austell, Plymouth and Barnstaple - the newest addition to the family - which opened in October 2025. Our three Superstores are also home to dedicated Sony Centres, alongside an extensive range of products from many of the biggest names in electricals and home entertainment.

Despite plenty of changes over the past 50 years, we've never forgotten where we came from. We remain a family-owned, proudly local business with strong roots in Cornwall and a commitment to offering the friendly, knowledgeable service that has been at the heart of HBH Woolacotts since 1976.

Our teams are here to offer honest, impartial advice and help you find the right products for your home, backed up by our own delivery, installation and repair services. From your first visit to ongoing aftersales support, we aim to make the whole experience as straightforward as possible.

After 50 years, our philosophy remains the same: **H**appy to **B**e **H**elpful.

PLYMOUTH SHOWROOM

Located at Coypool Retail Park, just off the A38, our Plymouth Superstore boasts an impressive 22,000 sq ft of retail space and is the largest independent electrical superstore in the South West. It's home to everything from TVs and home appliances to premium audio and fitted kitchens, but when it comes to hi-fi, there's more to Plymouth than first meets the eye.

You'll find plenty of audio products to explore around the main showroom, but venture towards the back of the store and you'll discover one of its best-kept secrets: our dedicated hi-fi and home cinema demonstration room.

Designed to feel distinctly different from the busy shop floor, it's a calm, comfortable space where you can take your time and concentrate on what really matters: the sound. Inside you'll find the latest 2-channel electronics, speakers, turntables, home cinema equipment and headphones, with plenty of different combinations ready to be demonstrated.

That focus on demonstration extends throughout the Superstore; we believe the best way to choose your next piece of equipment is to see it, hear it and experience it for yourself - so the vast majority of our display products are set up and ready to go.

From comparing amplifiers, speakers and turntables to exploring the difference a new cartridge, cable or piece of hi-fi furniture can make, there's plenty to experiment with. Home cinema fans are particularly well catered for too, with four complete home cinema systems set up and ready for demonstration across the store.

LG

SPECIAL RECOGNITION AWARD

With a strong heritage in premium AV mounting solutions and accessories, Sanus consistently delivers products that combine durability, ease of installation, and aesthetic appeal. Every solution is engineered with the end user in mind—from intuitive installation features that save time for professionals, to sleek, minimalist designs that complement modern living spaces. This balance of performance and design ensures both retailers and customers benefit from a premium, reliable offering.

Beyond product excellence, Sanus differentiates itself through strong operational support and a collaborative approach to partnerships. The business is built on transparency, responsiveness, and a deep understanding of retailer needs, ensuring consistent supply, clear communication, and aligned commercial strategies. This allows partners to confidently range and promote Sanus products, knowing they are backed by a trusted and proactive manufacturer.

In working with HBH Woolacotts, Sanus is particularly well aligned due to shared values around delivering high-quality consumer experiences and expert-led retail. HBH Woolacotts reputation for knowledgeable in-store service and premium product curation naturally complements Sanus focus on performance and design-led solutions. Together, this creates a compelling proposition for customers seeking reliable, high-end AV accessories supported by expert advice.

Furthermore, Sanus focus on category growth, and value creation makes it a strong long-term partner for HBH Woolacotts. Through tailored merchandising, staff training, and marketing support, Sanus helps drive incremental sales opportunities and improves in-store engagement. This collaborative mindset ensures that both businesses can grow together, strengthening customer loyalty while maximizing commercial success.

Sanus received great recognition at the 2025 Cornwall Hi-Fi Show, where we exhibited for the first time and won a Special Recognition award. This highlights how well our products were received by both HBH Woolacotts and their customers. It reinforces Sanus' reputation for quality and innovation and gives partners like HBH Woolacotts added confidence in offering a brand that is already gaining attention and credibility in the AV market.

Iconic design,
even better with *time*.

First launched in 1990, the original Talisman Speakers helped define Ruark's reputation for products that look as good as they sound. The new Talisman-R retains its slim profile while introducing refined engineering for today's listener. A Ruark NS+ woofer, silk dome tweeter, and decoupled baffle work together to deliver natural, room-filling sound. The result is unmistakably Talisman; reimagined with the confidence of four decades of craft.

Discover the Talisman-R Speakers today.

WADEBRIDGE'S HIDDEN GEM

Walk into our Wadebridge store and, at first glance, you might think it's all about kitchen appliances. Head upstairs, however, and you'll find something rather different.

The first floor is dedicated to home entertainment, with TVs from leading manufacturers and, tucked away from the bustle of the shop floor, our dedicated hi-fi and home cinema demonstration room. Designed to make listening feel comfortable and unhurried, it's the kind of room where you can settle into a demonstration and quickly forget you're sitting inside a busy electrical store.

There's plenty to listen to; the room is packed with speakers, turntables, amplifiers, hi-fi separates and more from many of the brands you'll see here at the show. The system has been designed with flexibility in mind too, allowing different products to be swapped in and out so you can hear and compare a huge variety of combinations.

It's not just about 2-channel hi-fi either. You can experience a full Dolby Atmos home cinema system, complete with ceiling speakers and a huge OLED TV, to discover just how immersive home entertainment can be. Add in a wide selection of accessories, from cables to cartridges, and there's an impressive amount hidden away on that first floor.

So, if something catches your eye or ear at the show and you'd like another listen afterwards, our Wadebridge hi-fi room is well worth a visit.

CHORD COMPANY AT HBH WOOLACOTTS

Chord Company is delighted to return to the HBH Woolacotts show, an event we have proudly supported for several years. Each year the show continues to grow in momentum and attract an ever-larger attendance — a testament to the passion of everyone involved.

Last year we were honoured to receive the Adrian Dykes Award for Best Stand. This recognition meant a great deal to the Chord team, reflecting our ongoing commitment to creating demonstration spaces that deliver the very best performance.

This year we look forward to showcasing the full range of our cables, with live demonstrations spanning from the C-series through to our highly regarded Epic range.

We invite you to visit our room, experience the difference for yourself, and discover why Chord continues to set the standard in high-performance connectivity.

ROTEL®

Since the 1960's Rotel has been at the forefront of stereo amplifier technology, in the search of a musical, or cinematic, experience that moves you. Family-owned since its inception, Rotel amplifiers focus on their own 'Balanced Design Concept,' an ethos which looks for harmony between components, circuit design and critical evaluation to achieve a performance that is more than the sum of its parts.

This is no more embodied than in the A11 and CD11 'Tribute' series. Developed in conjunction with audio engineering legend Ken Ishiwata as a tribute to his legacy, this integrated amplifier and CD player/DAC feature upgraded components to deliver rich, expressive sound and a true-to-life sonic experience with the highest levels of performance and acoustic clarity.

Available exclusively in Cornwall & Devon through HBH Woolacotts.

Pro-Ject
AUDIO SYSTEMS

The Pro-Ject Debut was first introduced in the late 1990's – during the peak of the CD revolution – and has become one of the world's most iconic and well-loved hifi turntables. A favourite among vinyl enthusiasts due to its exceptional sound quality, ease of use, and affordable price point; the Debut series has undergone several upgrades and improvements over the years, with each new iteration building on the success of the previous models.

The Debut Reference 10 continues this legacy. From the hand-painted chassis, newly developed 10-inch carbon fibre/aluminium sandwich tonearm and 'True Balanced' connectivity, this is the pinnacle of high-quality, yet affordable high-fidelity vinyl playback.

Book in a demo now at HBH Woolacotts.

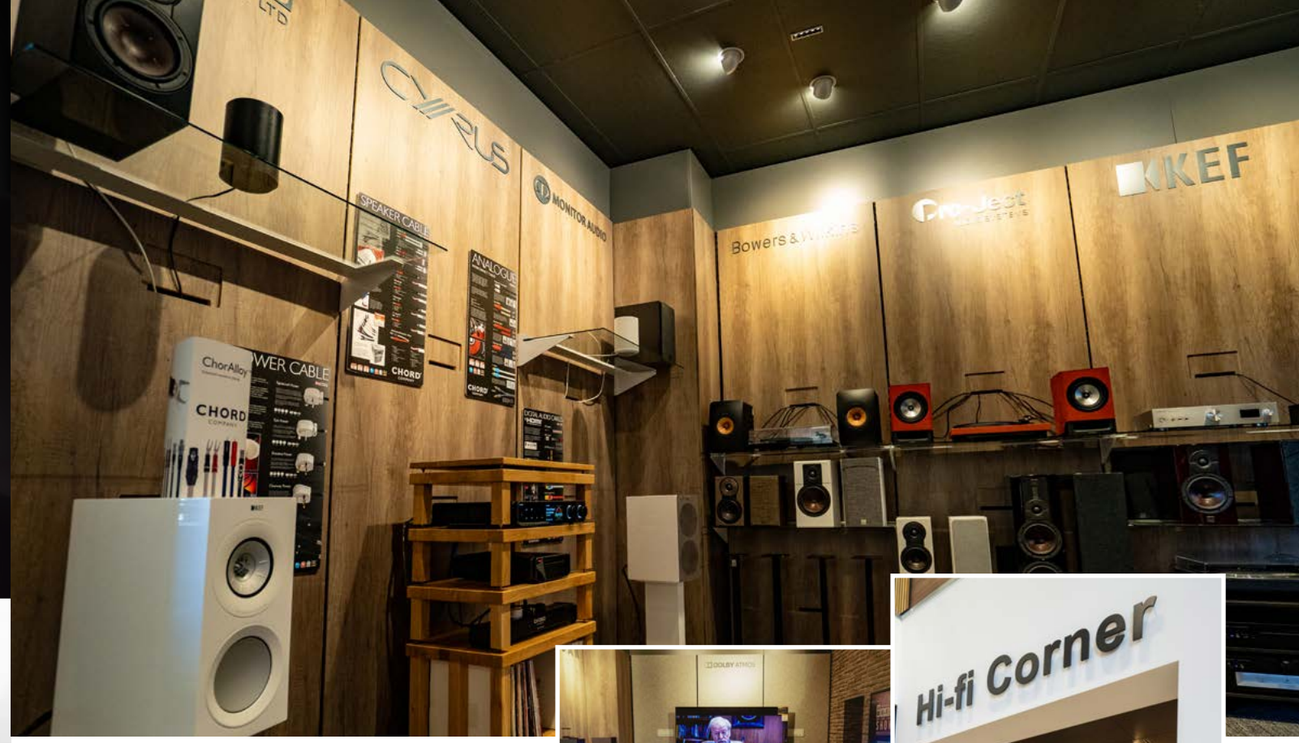

WiiM

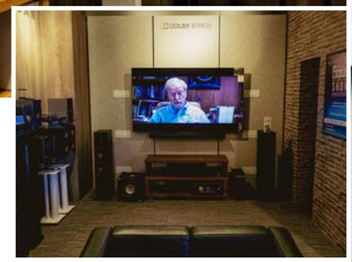

Redefining premium home audio. From powerful streamers and amplifiers to wireless smart speakers and home cinema solutions, WiiM is the one ecosystem that delivers true Hi-Res sound and smart control to every room and system.

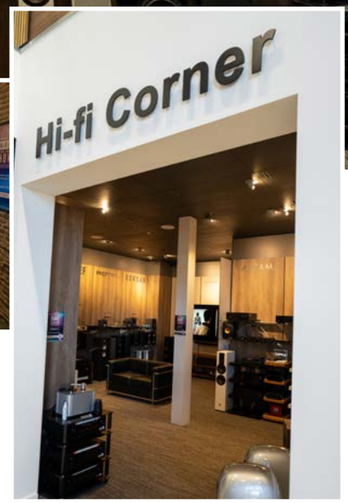

With the brand-new WiiM Bar you can elevate your living room with audiophile-grade 3.0.2 Dolby Atmos® and DTS:X spatial audio, while managing playback control, EQ and

room correction settings, and real-time playback info – including stunning album art – directly from the vibrant 2.1" touchscreen and intuitive mobile app. Want more sound? You can wirelessly pair the Bar with compatible WiiM devices to achieve a true 5.1.2 home theatre and beyond by fully integrating your cinema into a complete whole-home audio ecosystem.

Coming late 2026, contact your nearest HBH Woolacotts branch for more info.

ST AUSTELL'S HI-FI CORNER

When our St Austell Superstore opened in 2012, it was a first for HBH Woolacotts. With an impressive 18,000 sq ft of retail space, it became our original Electrical Superstore and our first venture into out-of-town retail, giving us the space to showcase more of what we do and the brands we work with than ever before.

Following a major store refit in 2020 and the growing popularity of 2-channel hi-fi and home cinema, we brought our Hi-Fi Corner right to the front of the store. Clearly visible from the entrance and sitting naturally alongside our TV and audio departments, it's now very difficult to walk past without stopping for a look. With stylish wooden displays, bespoke lighting and a completely different feel from the rest of the shop floor, the space has been designed to make listening relaxed and enjoyable.

Inside, you'll find an ever-changing selection of hi-fi and home cinema equipment from brands including Pro-Ject, Cyrus, KEF, Yamaha, REL, Arcam and more. From turntables, amplifiers and speakers to AV receivers, hi-fi separates and all the cables and accessories to bring everything together, there's plenty to get your hands on and, more importantly, listen to.

Film fans can get in on the action too. Our full 5.1.2 Dolby Atmos system, complete with ceiling-mounted speakers, is ready to demonstrate just how much of a difference a properly set-up home cinema system can make.

Whether you're building your first hi-fi system, planning your next upgrade or simply fancy sitting down with your favourite music, the Hi-Fi Corner is well worth seeking out next time you're in St Austell.

Three innovative, slim subwoofers.
One deeply immersive cinema experience.

You'll hear us in the Main Building.

BRAND NEW BARNSTAPLE SUPERSTORE

Our Barnstaple Superstore opened its doors on 25 October 2025, marking an exciting new chapter for HBH Woolacotts in North Devon.

After 10 years in our smaller Barnstaple High Street shop, the move to Brannams Retail Park at Roundswell gave us the opportunity to offer North Devon much more of the HBH Woolacotts experience, bringing a much greater range of products and services to customers old and new.

There's plenty to explore: from TVs, home cinema and electrical appliances to dedicated brand areas, The Cook Shop and a Haven Kitchens showroom. Most excitingly for us here at the Cornwall Hi-Fi & Home Cinema Show, the move also meant we could introduce something our Barnstaple branch had never had before: a dedicated hi-fi and home cinema demonstration room.

Just like our rooms in Wadebridge, St Austell and Plymouth, it provides a space away from the main shop floor where you can properly enjoy the equipment. With 2-channel hi-fi systems, turntables, speakers and home cinema all available to experience, customers in North Devon now have somewhere much closer to home to discover, compare and enjoy premium audio.

Almost a year on from opening, the Superstore has transformed what we're able to offer in North Devon, giving us more space, more choice and more ways to help long after the show is over.

YAMAHA

Make Waves

FEEL TRUE SOUND

EVER SINCE WE DESIGNED OUR FIRST HAND-WOUND GRAMOPHONE BACK IN 1922, YAMAHA have been bringing the music you love from studios and concert halls across the globe into the home for over 100 years.

Along the way, there have been a slew of innovations and landmark products; from our first speakers in 1966 (NS-20 & NS-30), our first integrated amplifier in 1972 (C-700), to flagship orthodynamic headphones (YH-5000SE), we are constantly looking to break down barriers between the original recordings and the listeners who enjoy them.

For our R-N range of stereo recievers, that means a revamped version of our room correction, YPAO, specifically for hi-fi. By eliminating the use of a target curve the R-N800, R-N1000, and R-N2000 help your music sing, rather than dictating how your system should sound.

Instead, the R-N series actively listens to your speakers and your room, matching them together in a way that is unique to your space. This means our recievers stay out of the way of your music, letting you focus on the magical performances that made you fall in love with hi-fi listening in the first place.

Whether it's your favourite vinyl record, high resolution streaming, or even TV content via HDMI*, the R-N series from Yamaha can handle it, all while matching modern convenience with beloved retro styling.

Book your demonstration now.

*HDMI eARC is only available on R-N1000 & R-N2000 models.

WHY CHOOSE HBH FOR YOUR HI-FI?

While many people know HBH Woolacotts for TVs and home appliances, hi-fi and premium audio have been part of our story for decades. In fact, there was a time when hi-fi played a central role in our business and over the past decade, we've been delighted to see that passion come to the forefront once again.

The resurgence of 2-channel hi-fi - and vinyl in particular - has given a whole new generation of listeners a reason to discover just how rewarding a great system can be. It has also encouraged plenty of long-time enthusiasts to rediscover old favourites, explore new technology and start thinking about that next upgrade.

Today, audio is once again a major part of what we do. The Cornwall Hi-Fi & Home Cinema Show has become one of the highlights of our calendar, and we also now have dedicated demonstration spaces in Wadebridge, Plymouth, St Austell and Barnstaple.

Of course, choosing the right hi-fi is about more than looking at a specification sheet; how something sounds to you is what matters, which is why we encourage you to take your time to listen and compare different combinations. Our teams receive regular, in-depth training from the brands we work with, giving them the knowledge to talk you through the options and help put together a system that suits your music, your room and your budget.

Support doesn't end once you've chosen your system. From advice and demonstrations to delivery, installation and aftersales support, we're here to help you get the most from it for years to come.

Our aim is simple: to make HBH Woolacotts the destination for great hi-fi, audio and home cinema in the South West, whether you're discovering it for the first time or you've been passionate about great sound for years.

HBH Woolacotts is the only business in the South West that can offer you all of the following...

1 PRICE MATCH PROMISE
We check our prices daily against major retailers to ensure that we're always competitive. BUT.... if you've seen an item cheaper elsewhere, give us the chance to match it.

2 FREE NEXT DAY DELIVERY SERVICE
We offer a FREE next day delivery service in Cornwall & Devon, subject to availability. We have a team of trained delivery engineers and can also offer additional installation services at very competitive rates.

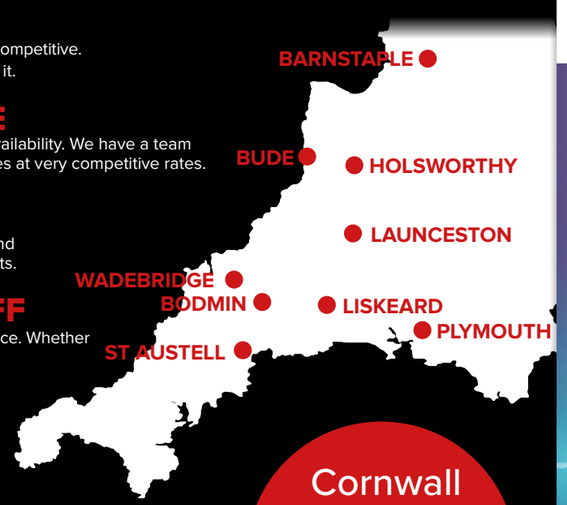

3 LOCAL STORES
With 9 stores located throughout Cornwall and Devon, we're able to show and demonstrate a range of products to help make sure you get the right products.

4 TRAINED & KNOWLEDGEABLE STAFF
Our staff receive regular training to ensure they provide you with the best advice. Whether it's before or after sales, our staff will give you informed and honest advice.

5 PERSONAL SERVICE
In-store, at home, online or over the phone; you're dealing with real people and not just a computer screen or call centre.

6 FAMILY FIRM / FAMILY VALUES
HBH Woolacotts is a family run business with over 45 years experience as an electrical retailer. We have 9 stores throughout Devon & Cornwall, a full ecommerce website and employ over 150 local staff.

7 SERVICE DEPARTMENT
With a trained team of service engineers and authorised service contracts from most leading manufacturers we can repair the majority of the products we sell, whether it's in or out of warranty.

Cornwall & Devon's **Local** Electrical Retailer

DIRECTOR'S MESSAGE

I'm Chris Hemmerle, one of the Directors at HBH Woolacotts. A large part of my role focuses on advertising and marketing, which means I work closely with Geoff and Dan to bring the Cornwall Hi-Fi & Home Cinema Show to life and make sure it's an enjoyable experience for everyone involved.

The idea for the show first started to take shape back in 2017, when Geoff and Dan suggested holding a hi-fi event in our newly refurbished Wadebridge store. What began as a way to bring people together, showcase our new hi-fi room and share our enthusiasm for great audio quickly became something much bigger. Before long, the idea had grown into a full exhibition at the Royal Cornwall Showground and, in 2018, the first Cornwall Hi-Fi Show opened its doors.

A lot has changed since then: over the past few years we've expanded the show in response to growing interest in TVs and home cinema, while making sure we never lose sight of where it all started. Hi-fi and audio remain at the heart of the event and I think the combination of the two is a big part of what makes the show what it is today.

I'm particularly excited to welcome TCL for the first time this year. The brand has recently joined our TV range as part of one of the biggest changes we've made to our television line-up in at least a decade, so I'm looking forward to seeing what they bring to the show. As always, there are also plenty of new product launches and products I haven't had the chance to see or hear yet -

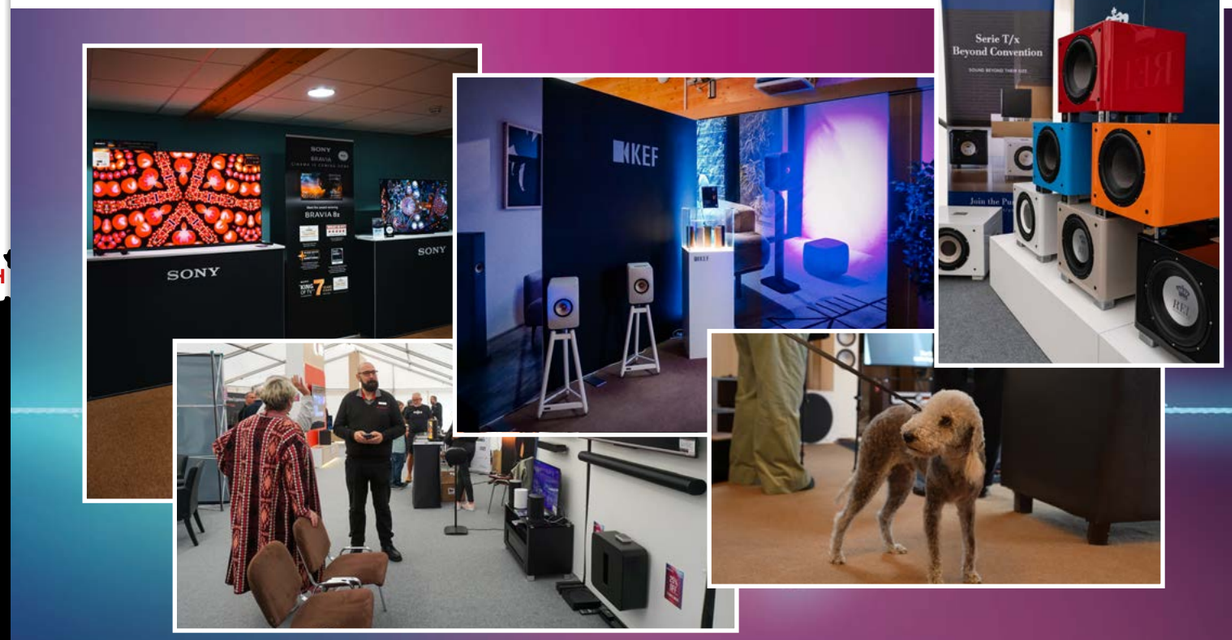

that sense of discovery is still one of my favourite parts of the weekend.

Finally, I want to recognise the incredible support we receive from all the brands and representatives who make the show possible. It's a challenging time for businesses and households alike, which makes their continued commitment to the event something we appreciate more than ever. They give us a huge amount of their time and support, not just for the show but throughout the year and without them we simply couldn't put on an event of this scale.

Thank you to everyone involved and, of course, to everyone joining us this year. I hope you have a fantastic show.

Chris Hemmerle
